Consent to Treat

You are the decision maker for your health care. Part of our role is to provide you with information to assist you in making informed choices. This process is often referred to as “informed consent” and involves your understanding and agreement regarding the care we recommend, the benefits and risks associated with the care, alternatives, and the potential effect on your health if you choose not to receive the care.

We may conduct some diagnostic or examination procedures if indicated. Any examinations or tests conducted will be carefully performed but may be uncomfortable.

Chiropractic care centrally involves what is known as a chiropractic adjustment. There may be additional supportive procedures or recommendations as well. When providing an adjustment, we use our hands or an instrument to reposition anatomical structures, such as vertebrae. Potential benefits of an adjustment include restoring normal joint motion, reducing swelling and inflammation in a joint, reducing pain in the joint, and improving neurological functioning and overall well-being.

It is important that you understand, as with all health care approaches, results are not guaranteed, and there is no promise to cure. As with all types of health care interventions, there are some risks to care, including, but not limited to: muscle spasms, aggravating and/or temporary increase in symptoms, lack of improvement of symptoms, burns and/or scarring from electrical stimulation and from hot or cold therapies, including but not limited to hot packs and ice, fractures (broken bones), disc injuries, strokes, dislocations, strains, and sprains. With respect to strokes, there is a rare but serious condition known as an “arterial dissection” that typically is caused by a tear in the inner layer of the artery that may cause the development of a thrombus (clot) with the potential to lead to a stroke. The best available scientific evidence supports the understanding that chiropractic adjustment does not cause a dissection in a normal, healthy artery. Disease processes, genetic disorders, medications, and vessel abnormalities may cause an artery to be more susceptible to dissection. Strokes caused by arterial dissections have been associated with over 72 everyday activities such as sneezing, driving, and playing tennis.

Arterial dissections occur in 3-4 of every 100,000 people whether they are receiving health care or not. Patients who experience this condition often, but not always, present to their medical doctor or chiropractor with neck pain and headache. Unfortunately, a percentage of these patients will experience a stroke.

The reported association between chiropractic visits and stroke is exceedingly rare and is estimated to be related in one in one million to one in two million cervical adjustments. For comparison, the incidence of hospital admission attributed to aspirin use from major GI events of the entire (upper and lower) GI tract was 1219 events/ per one million persons/year and risk of death has been estimated as 104 per one million users.

It is also important that you understand there are treatment options available for your condition other than chiropractic procedures. Likely, you have tried many of these approaches already. These options may include, but are not limited to: self-administered care, over-the-counter pain relievers, physical measures and rest, medical care with prescription drugs, physical therapy, bracing, injections, and surgery. Lastly, you have the right to a second opinion and to secure other opinions about your circumstances and health care as you see fit.

I have read, or have had read to me, the above consent. I appreciate that it is not possible to consider every possible complication to care. I have also had an opportunity to ask questions about its content, and by signing below, I agree with the current or future recommendation to receive chiropractic care as is deemed appropriate for my circumstance. I intend this consent to cover the entire course of care from all providers in this office for my present condition and for any future condition(s) for which I seek chiropractic care from this office.

Financial Policy

Most of our patients that have health or accident insurance will fall under one of the plans discussed in this policy. We ask that you read and understand our policy as it applies to your particular situation.

PATIENTS WITHOUT INSURANCE
We request that 100% of the first visit be paid at the time of the visit. If you prefer we can set up payments on an EFT (electronic fund transfer) from your account. We are happy to accept your check, Master Card, Discover or Visa card.

GROUP OR INDIVIDUAL INSURANCE
After your first visit, we will call to verify benefits on your insurance. However, the benefits quoted to us by your insurance are not a guarantee of payment. Credit Guarantee form must be filled out and signed. Payment will be due by you at the time of service for any non-covered services, deductibles or co-pays.

"ON THE JOB" INJURY (Workman's Compensation)
If you are injured on the job, your care should be paid for under your employer's Worker's Compensation insurance. You will need to inform your employer of the accident and obtain the name and address of the carrier of their insurance. If your employer does not provide us with this information, if a settlement has not been made within 3 months, or if you suspend or terminate care, any fees for services are due immediately.

PERSONAL INJURY OR AUTOMOBILE ACCIDENTS
Please notify your auto insurance carrier of your visit to our office immediately. Notify our insurance department immediately if an attorney is representing you. Although you are ultimately responsible for your bill, we will wait for settlement of your claim for up to 6 months after your care is completed. Once the claim is settled or if you suspend or terminate care, any fees for services are due immediately.

MEDICARE
We do accept assignment from Medicare. Our office completes and files the forms for Medicare at no cost.

SECONDARY INSURANCE
Please inform us of any secondary insurance you may have. We will assist you if you need help filing.

I have read and understand the payment policy of Peak Family Chiropractic. I understand that my insurance is an arrangement between myself and my insurance company, NOT between Peak Family Chiropractic and my insurance company. I request that Peak Family Chiropractic prepare the customary forms at no charge so that I may obtain insurance benefits.
